Middlebury had two fires Monday, the first destroying an unoccupied house belonging to the college, with a loss of \$500, and the second destroying a barn at Hillcrest cottage, located not far from the first building mentioned, which was burned to the ground. The barn was partly insured, but the contents, consisting of new doors, windows, pulp

plaster and cement to be used in finishing the new annex, all of which belonged to the college, was a total loss. About nine acres of grain, belonging to Charles E. Harris, which was stored in the barn, and some tools, the property of Arthur N. Brown, who is building the annex, all of which will amount to over \$1,000, was a total loss.

THROWS CORDON ABOUT FIUME

Italy Planning to Strangle the Movement of D'Annunzio

MILITARY AND NAVAL FORCES DESPATCHED

D'Annunzio's Men Are Said to Have Entrenched Themselves

Paris, Sept. 18.—Italy is throwing a naval and military cordon about the city of Fiume, which is still held by Captain Gabriele D'Annunzio's forces. Food supplies of Fiume are reported to be low, and an effort is being made to close all avenues by which stores can be rushed into the city, and thus to force the surrender of troops holding the place.

Advices received here indicate that Captain D'Annunzio's men have entrenched themselves about the city and intend to defend it against any attack which may be made. If it is found impossible to hold Fiume, it is said, plans have been laid to destroy the city.

General Badoglio, deputy chief of staff of the Italian army, is in Fiume and issued a proclamation calling upon the D'Annunzio troops to return to their units. Some are said to have left the city. General Diaz, commander-in-chief of the Italian army, has been recalled from his vacation and has been in conference at Rome with King Victor Emmanuel and Premier Nitti. All dispatches relating to the situation at Fiume are being rigorously censored by the Italian government, but it is reported that Rear Admiral Casanova, who landed at Fiume on Tuesday to restore order, is under virtual arrest there.

It develops there were no American detachments in Fiume when Captain D'Annunzio marched into the city last week. Early reports from Italy stated American units had left by steamer, but it is believed the only Americans there were members of the American food administration mission, who might have been mistaken for soldiers because they wore United States army uniforms.

BETHEL

F. F. McCullough Drove Car Against Tree to Save a Boy.

To avoid colliding with Pasquale, the young son of Mr. and Mrs. Domenico Izzo, who was chasing a hoop diagonally across the street toward his car, apparently quite oblivious of the car's approach, F. F. McCullough, with his wife as a passenger, swung his car upon Mrs. Emma Morse's lawn and sideswiped a maple tree, considerably damaging his car Tuesday afternoon. The tree was nearly girdled at the point of contact with the car. The lawn was much disarranged, but everybody was happy because the careless child was safe. Far too little heed is given by children to the possible dangers of the streets in some parts of the village.

Henry C. Persons is in St. Johnsbury at the home of his daughter, whose husband died recently. He and his son, Roy L. Persons, attended the funeral on Monday.

Calais has one girl who still continues to ply the knitting needles. If every girl would do as well as Miss Esther Leonard has in the past month, no one in France or elsewhere need go cold the coming winter. Miss Leonard has finished her third sleeved sweater and started the fourth. Miss Leonard has sent in more knitting to the Red Cross than any other person in town. She surely has done her bit.

Gerald Hawkins has been absent from school several days on account of the chickenpox.

Charles Wilber is working in Richmond.

Not a cake soap
Not a "washing powder"
But a wonderful
new Soap Product in fine granules

NO solid soap, to rub into the cloth, and injure the fibre.

No harsh cleansing agents, to "eat" your clothes and destroy the colors.

Buy a wonderful new soap product—in a new form.

The pure Rinso granules are made of finer quality ingredients than were ever used in a family laundry soap before! They are so mild, your tubful of clothes is as safe with them as in pure water alone.

They are so rich in cleansing value, they loosen all the dirt. You simply soak the clothes overnight, or for three hours in the morning in the rich Rinso suds.

Only a few badly soiled spots, cuff edges, etc., need a light rubbing between your hands.

Then you rinse the clothes. And your

week's washing is ready to hang on the line, clean and white.

You don't have to stand over the washtub, and rub and rub.

You don't have to stand over the hot range, and turn the hot, heavy clothes with a stick. You need never boil, unless you want to do so occasionally, to sterilize.

Try Rinso with your very next week's washing, following the easy directions on the package. See how different Rinso is from anything ever produced before. How it saves hours of heavy work. How it saves your clothes.

Get Rinso from your grocer. One package will do a week's washing. Lever Bros. Co., Cambridge, Mass. (Makers of Lux.)

Rinso is not a "Washing Powder"

The fine granules of Rinso look much like a "washing powder," but make this test: Use a heaping teaspoonful to a glass of boiling water.

"Washing Powder"—high in harsh chemicals—low in soap

RINSO—absolutely harmless—so rich in soap it "jells!"
